PROFESSIONAL EXPERTISE

UI SOFTWARE DEVELOPMENT

Fast, efficient, high-quality development of single-page enterprise applications using the ExtJS UI framework, with a passion for putting the "face" on complex, commercial products.

TECHNICAL LEAD ROLES

Lead UI developer for small teams, mentoring junior engineers, promoting software reuse and componentization under accepted OO design principles, while ensuring common, consistent user experience throughout product touchpoints.

UI/UX DESIGN

Extensive expertise in designing UI layouts and interactions that are rich in user experience, with an intensely-focused attention to detail. Pixel-perfect, rapid prototyping of working mockups.
